

KHAIRUL HAKIMI BIN ROSLI

Petaling Jaya, Selangor | 0187858049 | khairulhakimi052@gmail.com | [Portfolio](#)

SUMMARY

Information Systems Engineering graduate with hands-on experience developing web applications, from requirements gathering to full-stack development. Experienced in requirements analysis, system design, development, and testing through academic and industry projects. Seeking a software development role where I can apply my skills, gain experience, and grow professionally.

EDUCATION

Universiti Teknologi MARA (UiTM) Campus Shah Alam

Apr 2024 – July 2026

Bachelor of Information Systems in Information Systems Engineering

CGPA: 3.61/4.00 | MUET: Band 3.5

Universiti Teknologi MARA (UiTM) Campus Segamat

Sept 2021 – Feb 2024

Diploma in Computer Science | CGPA: 3.41/4.00

WORK EXPERIENCE

Programmer Intern | JustSimple (M) Sdn Bhd

Mar 2026 – July 2026

- Translated UI/UX mockups into responsive Tailwind CSS frontends while collaborating with a cross-functional team on backend development (CodeIgniter, PHP), delivering 3 integrated web portals for user, agent and dashboard.
- Designed, developed and implemented RESTful API (TikTok) to auto-pull creator profile data, eliminating manual data collection enabling the team to scale campaign management.
- Fixed 20+ production bugs across email delivery, URL routing, UI rendering, and broken workflow functionality, restoring full functionality within 1 day of each report.
- Maintained 10+ live production websites for company and client accounts, shipping new features and resolving responsive-layout, routing, and email-delivery defects to ensure uninterrupted site performance.

Graphic Design Intern | Bits and Bytes Technology Sdn Bhd

Sept 2023 – Feb 2024

- Designed posters and social media graphics with Adobe Photoshop used across 4 campaigns/channels.
- Produced and edited videos using Adobe Premiere Pro supporting company ads and social media output.

PROJECTS

Driving License Application System | Final Year Project

Oct 2025 – Feb 2026

- Conducted stakeholder interviews to collect requirements and used BPMN to identify key problems and solution.
- Applied RAD methodology to produce SRS and SDD documentation, design database schema, and create UI/UX wireframes using Figma to define clear technical and design specifications for iterative development.
- Developed a full-stack web application using Laravel, PHP, and MySQL with Tailwind CSS, integrating Optical Character Recognition to automatically extract applicant document data, improving approval turnaround speed.

Qurban Management System

Apr 2024 – Sept 2025

- Conducted requirements gathering and analysis to identify system gaps and define clear scope for development.
- Designed system architecture and database schema to support scalable and role-based functionality management.
- Developed the application using Laravel, HTML, CSS and MySQL, implementing online ordering functionality and end-to-end order tracking for local and international Qurban orders.
- Performed User Acceptance Testing to validate functionality against stakeholder requirements.

E-commerce Mobile Application

Sept 2023 – Feb 2024

- Built a dynamic Android e-commerce application using Java with a product-focused UI, integrating Firebase for real-time database functionality and backend data management.

SKILLS

Languages: PHP, Java, C++, Python.

CS Fundamentals: Data Structures, OOP, Software Testing and Debugging.

Frameworks: Laravel, CodeIgniter.

Frontend: ReactJS, Tailwind CSS, HTML5, CSS3, Bootstrap.

Databases: MySQL, Oracle, Firebase.

Tools: Git/GitHub, cPanel, Laragon, Figma, WordPress.

Languages Spoken: Malay (Fluent), English (Intermediate).
